

What do you like most working at Second-Start?

I love working with tutors and meeting professionals that want to give back to their community.

Who has had the biggest influence on your career?

What is one thing that always makes you happy?

I am always humbled by hard working individuals, so I would say, "Students who have shown the courage to make positive improvements and successfully move their lives in a more positive direction."

Growing things! Whether it is plants or helping other to achieve their goals.

What is your super power?

Listening

What are you most proud of?

I am most proud of the service trips I did in Ecuador. One was with Nursing students treating indigenous tribes' people. The other was providing water filtration systems to tribes living in the jungle. It was amazing and life changing.
